AU PAIR IN AUSTRALIA

Australia... a large and fascinating country: Kangaroos and koalas, world's best beaches, large multicultural cities. There are vast and wonderful places to travel to in your free time or after your placement. Sydney and Melbourne are the largest cities, followed by Perth, Brisbane and Adelaide.

Our host families are mainly in the coastal cities and large towns. English is the language spoken, although you will hear many different languages as people from all over the world live, travel and work in Australia. Public transport services are excellent, so it is easy to travel around, although there are large distances between places.

Australia is also a great base to visit New Zealand, Indonesia, Malaysia, Singapore, the Philippines and many other Pacific Islands during your paid holidays, or after your placement.

When to go

Placements for 3, 6 and 12 months available all year round.

Eligible childcare experience

Minimum 100 hours experience as a babysitter, nanny, teaching or nursing placements, tutor or coach. This can be any fairly regular interaction with children not related to you, up to age 12.

Experience with children related to you is acceptable but only in addition to that of non-related children. You will need to be able to obtain two or more references to support your childcare experience on our reference template, as part of your application.
